Eat@

Find Restaurants

Users can search our comprehensive directory of restaurants on their mobile phone, using the GPS feature to find you.

Browse Menus

Let your customers preview your delicious menus with photos to maximise the temptation and persuade them to choose you.

What You Can Do

- ✓ Easily add your restaurants to the directory
- ✓ Moderate user reviews
- ✓ Communicate direct to mobiles
- ✓ Reserve Tables*

Mobile Marketing

- ✓ Vouchers and offers via mobile phones
- ✓ Photos, menus, reviews and more
- ✓ App, SMS & Email marketing to thousands of mobile phone users

Only Eat@ gives you full editorial control over your entry in our mobile directory.

Upload photos and promote your menus to tantalize the diner's taste-buds and tempt them through your doors.

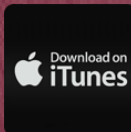

Create & manage promotions and offers, direct to mobiles phones.

Eat@ is an interactive mobile marketing tool. Use location and preference information about your customers to ensure they receive up to the minute & relevant vouchers & offers, with high response rates.

Combine with our SMS or email marketing campaigns to reach out to diners everywhere and stay ahead of the competition.

Free Download

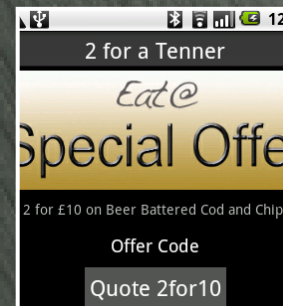

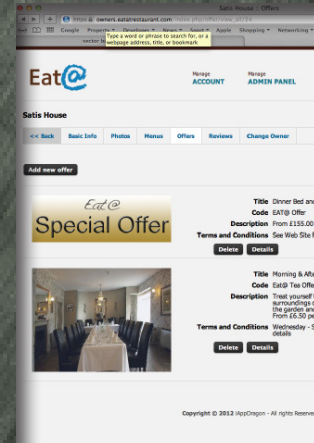

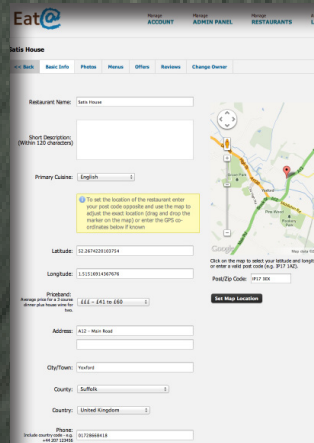

Users can download the Eat@ restaurant app from iTunes, Amazon App Store and Google Play - free of charge.

Custom Apps

If you prefer, we can develop your own unique app to your exact specification.

From design to Appstore we have the right expertise to deliver an app that's perfect for you.

Vouchers & Offers

Targeted vouchers & promotions based on current location, preferences or just a user's favourite restaurants.

Take No Chances

The moderated fair rating and review feature ensures diners can select a restaurant without surprises.
